<b>CONCERNING VIOLATIONS OF</b>	}	<b>SOS-HAVA-00-08-0008</b>
	}	
<b>THE HELP AMERICA VOTE ACT</b>	}	

### **I. Procedural Background**

On October 14, 2008, the Office of the Secretary of State (“Office”) received a written complaint dated October 14, 2008, signed by Al Kolwicz (“Kolwicz”). This complaint alleged that the Office violated Title III of the Help America Vote Act of 2002 (“HAVA”), Public Law 107-252, with regard to the implementation of the Statewide Colorado Voter Registration and Election (“SCORE”) system.

Specifically, Kolwicz alleges the following violations of federal law:

1. SCORE does not assign a unique identifier to each legally registered voter. HAVA Title III Sec. 303(a)(1)(B)(iii). (*sic*). [Correct cite is 303(a)(1)(A)(iii)].
2. SCORE does not eliminate duplicate names from the computerized list. HAVA Title III Sec. 303(a)(2)(B)(iii).
3. SCORE does not make a reasonable effort to remove registrants who are ineligible to vote from the official list of eligible voters. HAVA Title III Sec. 303(a)(4)(A).
4. SCORE does not verify the accuracy of the information provided on applications for voter registration. HAVA Title III Sec. 303(a)(5)(B). (*sic*). [Correct cite is 303(a)(5)(A)].
5. SCORE does not meet the minimum requirements established by Title III. HAVA Title III Sec. 304.

On October 16, 2008, the Office acknowledged receipt of the complaint by letter to Kolwicz and assigned a unique tracking number (SOS-HAVA-00-08-0008) to the complaint reflecting the filing date. In its letter to Kolwicz, the Office noted that it would conduct a preliminary review of the complaint pursuant to section 1-1.5-105(2)(k), C.R.S.

On October 17, 2008, the Office received an email containing seven (7) PDF files of duplicate voters as identified by Kolwicz.

On October 20, 2008, Kolwicz submitted a response to the October 16, 2008 letter issued by the Office. In the response, Kolwicz expressed his concern over the potential conflict of

interest that exists by the Office reviewing a complaint against itself; rather the Office should forward to the complaint to the U.S. Attorney as requested by Kolwicz and provided for under Section 401 of HAVA. The response also claimed that using the 90-days as prescribed in state law would disenfranchise voters in the November election.

## **II. Jurisdiction**

Jurisdiction of the Office of the Secretary of State is vested pursuant to section 1-1.5-104(2)(a), C.R.S., which specifically authorizes the Secretary of State to investigate allegations of noncompliance with the requirements of HAVA, and pursuant to section 1-1.5-105, which authorizes the Secretary of State to establish a complaint procedure in accordance with section 402 of HAVA. Furthermore, section 1-1.5-105(2)(k), C.R.S., authorizes the Secretary of State to conduct a preliminary review of any complaint submitted and to dismiss any complaint that is not supported by credible evidence. Further, the Secretary is authorized and required to exercise any other power or perform any other duties that are consistent with section 1-1.5-101 *et seq.*, C.R.S., and that are reasonably necessary for the proper administration, implementation, and enforcement of HAVA, and that will improve the conduct of elections in the state in conformity with HAVA. *See* section 1-1.5-104(1)(f), C.R.S.

## **III. Legal Authority**

The Secretary of State is authorized under the Colorado Uniform Election Code:

To inspect, with or without the filing of a complaint by any person, and review the practices and procedures of county clerk and recorders, election commissions, their employees, and other election officials in the conduct of primary, general, and congressional vacancy elections and the registration of electors in this state. Section 1-1-107(2)(b), C.R.S. (2005)

The HAVA complaint procedure is set forth at section 1-1.5-105, C.R.S. (2005):

(1) Subject to the requirements of this section, in accordance with section 402 of HAVA, the secretary may establish by rule a uniform administrative complaint procedure to remedy grievances brought under title III of HAVA.

(2) Any rules promulgated pursuant to subsection (1) of this section shall provide for, but need not be limited to, the following:

(a) A uniform and nondiscriminatory complaint procedure;

(b) Authorization for any person who has either been personally aggrieved by or has personally witnessed a violation of Title III of HAVA that has occurred, is occurring, or that is about to occur, as applicable, to file a complaint;

(c) A description by the complainant in his or her complaint of the alleged violation with particularity and a reference to the section of HAVA alleged to have been violated;

(d) A requirement that the complaint be filed no later than one year from the date of either the occurrence of the alleged violation or of the election giving rise to the complaint, whichever is later;

(e) A requirement that each complaint be in writing and notarized, signed, and sworn by the person filing the complaint;

(f) Authorization for the secretary to consolidate two or more complaints;

(g) At the request of the complainant, a hearing on the record;

(h) Authorization for the secretary to provide an appropriate remedy if the secretary determines that any provision of Title III of HAVA has been violated or to dismiss the complaint and publish the results of his or her review if the secretary determines that no provision of Title III of HAVA has been violated;

(i) A final determination on the complaint by the secretary prior to the expiration of the ninety-day (90) period that begins on the date the complaint is filed, unless the complainant consents to an extension of time for making such determination;

(j) Resolution of the complaint within sixty (60) days under an alternative dispute resolution procedure that the secretary shall establish in accordance with the requirements of this section, if the secretary fails to satisfy the applicable deadline specified in paragraph (i) of this subsection (2), and the availability of the record and any other materials from any proceedings conducted under the complaint procedures established for use under such alternative dispute resolution procedures;

(k) Authorization for the secretary to conduct a preliminary review of any complaint submitted to him or her and to dismiss any complaint that he or she finds is not supported by credible evidence; and

(l) Recovery by the secretary of the costs of the proceeding against any complainant who files a complaint that, in connection with the final determination by the secretary pursuant to paragraph (i) of this subsection (2), is found, on the basis of clear and convincing evidence, to be frivolous, groundless, or vexatious.

(3) Notwithstanding any other provision of law:

(a) No complaint shall be brought pursuant to the procedure created by this section unless the complaint alleges a violation of Title III of HAVA;

(b) Proceedings for the resolution of a complaint brought pursuant to this section shall not be considered an adjudication under Article 4 of Title 24, C.R.S.; and

(c) The procedures created by this section shall constitute the exclusive administrative remedy for a violation of Title III of HAVA.

(4) Any person aggrieved by a final determination by the secretary acting pursuant to paragraph (i) of subsection (2) of this section may appeal the secretary's determination to the district court in and for the City and County of Denver within thirty (30) days of the date of the determination.

In addition, HAVA complaint procedures are governed by Rule 31 of the Election Rules of the Colorado Secretary of State, 8 CCR 1505-1.

#### **IV. Findings of Fact and Conclusions of Law**

##### **1. Claim that SCORE is Violating HAVA Title III Sec. 303(a)(1)(A)(iii)**

Kolwicz claims that SCORE does not assign a unique identifier to each legally registered voter as required by HAVA. In a database purchased on February 25, 2008, Kolwicz identified

at least 10,217 records containing the same last name, first name, middle name and birth date as one or more other records. Kolwicz states ‘[I]n SCORE, each record has a unique identifier; each person does not have the required unique identifier.’

Sec. 303(a)(1)(A)(iii) of HAVA states ‘[U]nder the computerized list, a unique identifier is assigned to each legally registered voter in the State.’ Colorado implemented said requirement through the use of the voter driver’s license number, last four digits of the social security number or unique identifier used if the voter affirms to having neither of the aforementioned. In addition to these methods of uniquely identifying voters, SCORE assigns each registration entered into the system a unique number. Duplicate registrations can be cross-referenced to identify them as a duplicate, and the records can be merged together leaving one unique record.

2. Claim that SCORE is Violating HAVA Title III Sec. 303(a)(2)(B)(iii)

Kolwicz claims that SCORE does not eliminate duplicate names from the computerized list pursuant to the requirements of HAVA. Kolwicz provided documentation identifying records that contained identical last name, first name, middle name, birth day, and telephone number or residence address showing that duplicate names were on the voter rolls.

HAVA Title III Sec. 303(a)(2)(A) states that the “[a]ppropriate State or local election official shall perform list maintenance with respect to the computerized list on a regular basis.” [Emphasis added]. HAVA Title III Sec. 303(a)(2)(B)(iii) further states that the “[l]ist maintenance performed under subparagraph (A) shall be conducted in a manner that ensures that duplicated names are eliminated from the computerized list.” The provision requires that the appropriate election official perform the list maintenance, which includes the removal of duplicate names, but does not require that the computerized system systematically be responsible for list maintenance.

The SCORE system meets this requirement. Each county clerk and recorder has the ability to generate a list of possible duplicates in the system, which is ranked by certain criteria. After the report is generated, county personnel manually verify whether or not the identified individuals have duplicate records in the SCORE system. This is accomplished through name, address, birth date and signature verification. If the county determines the record to be a duplicate, the record is cancelled and merged into the appropriate record.

3. Claim that SCORE is Violating HAVA Title III Sec. 303(a)(4)(A)

Kolwicz alleges that “SCORE does not make a reasonable effort to remove registrants who are ineligible to vote from the official list of eligible voters.”

The referenced provision of HAVA requires a ‘[s]ystem of file maintenance that makes a reasonable effort to remove registrants who are ineligible to vote from the official list of eligible voters.’ The requirement does not specify that it must be an electronic system, nor does it specify that it be done solely by the voter registration system.

The counties each manage the electoral process and record, in the SCORE system, when a person has voted in an election. Based on this information, each county is able to generate a report from SCORE detailing individuals that did not vote in an election so as to comply with the National Voter Registration Act of 1993<sup>1</sup> (“NVRA”) as well as other eligibility requirements provided for in state and federal law.

4. Claim that SCORE is violating HAVA Title III Sec. 303(a)(5)(A)

Kolwicz complains that “SCORE does not verify the accuracy of the information provided on applications for voter registration.” Kolwicz explains that there exist individuals in the SCORE system that are registered to vote before they were born; that some active voters have been registered to vote for more than 100 years; and that SCORE does not verify the accuracy of birth dates and registration dates. Because of all these failures, Kolwicz claims that SCORE does not verify the accuracy of its data in violation of the minimum requirements of HAVA Title III.

HAVA Title III Sec. 303(a)(5)(A) requires certain information to be provided by the registrant when submitting a voter registration application to the election official. It further requires the State to assign the applicant a unique number to serve as an identifier for voter registration purposes and to determine whether or not the information provided by the individual is sufficient to meet the requirements of the law.

The Office recognizes that the information identified by Kolwicz exists. SCORE is in fact designed to verify the accuracy of information keyed into the system by the counties, but not the information migrated from the county’s legacy systems; assign a unique identifier to individuals who do not possess a state issued identification or social security number; and provide for review of records determine compliance with legal requirements. The problems identified by Kolwicz, likely existed in the county legacy systems prior to the implementation of SCORE, therefore when the information was migrated to SCORE the data was converted as it already existed.

## V. Conclusion

### Summary of Final Determination

1. SCORE is Violating HAVA Title III Sec. 303(a)(1)(B)(iii) (*sic*)

Kolwicz claims that the SCORE system does not assign a unique identifier to each registered voter as required by HAVA. The SCORE system does in fact assign a unique identifier to the voter through the use of the driver’s license number, last four digits of the social security number or other unique identifier created in the absence of either of the aforementioned.

Thus, the SCORE system is in compliance with Title III Sec. 303(a)(1)(A)(iii) of HAVA.

---

<sup>1</sup> 42 U.S.C. 1973gg, *et seq.*

2. SCORE is Violating HAVA Title III Sec. 303(a)(2)(B)(iii)

Kolwicz claims that the SCORE system does not eliminate duplicate names as mandated by HAVA. The requirement under HAVA is for the appropriate election official to perform regular list maintenance and ensure that duplicate names are eliminated from the computerized list.

Thus, the SCORE system is in compliance with the requirements of HAVA Title III Sec. 303(a)(2)(B)(iii). Since county clerks have the ability to identify and remove duplicate voters the requirements of the law are satisfied.

3. SCORE is Violating HAVA Title III Sec. 303(a)(4)(A)

Kolwicz alleges that the Secretary has not made a reasonable effort to remove registrants who are ineligible to vote, and the SCORE system does not make a reasonable effort to remove registrants who are ineligible to vote as mandated by HAVA Title III Sec. 303(a)(4)(A). HAVA requires that the system include provisions to ensure that the records are accurate and updated regularly; it does not mandate that either the Secretary of State or the SCORE system be responsible for systematically accomplishing this.

Thus, no violation of HAVA Title III Sec. 303(a)(4)(A) has occurred. The SCORE system has the ability to generate reports that allow for counties to ensure accuracy of the voter rolls.

4. SCORE is violating HAVA Title III Sec. 303(a)(5)(A)

Kolwicz alleges that SCORE does not verify the accuracy of information provided on applications for voter registration in compliance with the requirements of HAVA. Title III Sec. 303(a)(5)(A) of HAVA requires the applicants to submit certain information on their voter registration application and for the system to be able to assign a unique identifier under certain circumstances. The SCORE system possesses the ability to assign such a number as well as provide information which both the state and local election officials can use to ensure compliance with federal registration requirements.

Thus, no violation of HAVA Title III Sec. 303(a)(5)(A) has occurred.

As to Kolwicz' request that the complaint be referred to the United States Department of Justice, section 1-1.5-105 (3), C.R.S., requires that section 1-1.5-105 "shall constitute the exclusive administrative remedy for a violation of HAVA". There is no authority in section 1-1.5-105 to refer a complaint to another agency.

## **VI. Determination**

For reasons described above, the Secretary finds that the complaint is not supported by credible evidence. In accordance with section 1-1.5-105 (2) (i) and (2)(k), C.R.S., the complaint is therefore dismissed.

## **VII. Right of Appeal**

Section 1-1.5-105 (4), C.R.S., provides that, "Any person aggrieved by a final determination by the secretary acting pursuant to paragraph (i) of subsection (2) of this section may appeal the secretary's determination to the district court in and for the city and county of Denver within thirty days of the date of the determination."

STATE LAW VIOLATIONS (NOTE: ALLEGED VIOLATIONS OF STATE ELECTION LAW DO NOT NEED TO BE NOTARIZED)

Pursuant to Section 1-1-107(2)(b), Colorado Revised Statutes, the Secretary of State is granted independent authority to inspect and review the practices and procedures of county clerk and recorders, election commissions, their employees, and other election officials in the conduct of primary, general, and congressional vacancy elections and the registration of electors in this state, with or without the filing of a complaint by any person.

FEDERAL LAW VIOLATIONS (NOTE: ALL ALLEGED VIOLATIONS OF THE HELP AMERICA VOTE ACT MUST BE NOTARIZED)

Pursuant to section 1-1.5-105, Colorado Revised Statutes, the Secretary of State has sole jurisdiction to adjudicate alleged violations of Title III of the Help America Vote Act of 2002 (HAVA). Any person who believes that a violation of Title III of HAVA has occurred, is occurring, or is about to occur may file a complaint. In order to initiate the complaint process, a sworn, written, signed and notarized complaint must be filed with the Secretary of State no later than one year from the date of either the occurrence of the alleged violation or of the election giving rise to the complaint, whichever is later. The complaint must allege the violation with particularity, contain a reference to the section of HAVA alleged to have been violated, and the person or entity responsible for the violation.

Case No.:

Violations of Public Law 107-252,  
October 29, 2002

Dated this October 14, 2000

Al Kolwicz  
2867 Tincup Circle  
Boulder, CO 80305

1 **SUMMARY**

2 The Colorado Secretary of State, acting as Chief Election Official  
3 for the State of Colorado, has the authority and the duty to implement  
4 the provisions of Title III of Public Law 107-252 - Uniform and  
5 Nondiscriminatory Election Technology and Administration Requirements.  
6

7 In particular, under Sec. 303 - Computerized Statewide Voter  
8 Registration List Requirements and Requirements for Voters who  
9 Register by Mail and Sec. 304 - Minimum Requirements, the Secretary  
10 has the authority and duty to comply with:  
11

- 12 1. HAVA Title III Sec. 303(a) (1) (B) (iii)
- 13 2. HAVA Title III Sec. 303(a) (2) (B) (iii)
- 14 3. HAVA Title III Sec. 303(a) (4) (A)
- 15 4. HAVA Title III Sec. 303(a) (5) (B)
- 16 5. HAVA Title III Sec. 304

17 The Secretary of State has (1) developed, approved, and placed into  
18 production a computerized Statewide Colorado Voter Registration and  
19 Election (SCORE) system, and (2) delegated responsibility and  
20 authority to individual counties to use SCORE and administrative  
21 procedures to meet these Title III requirements. The combined  
22 computer-administrative system is referred to below as SCORE.  
23

24 The Secretary of State, using SCORE, has failed and continues to  
25 fail to comply with the law. As will be detailed below:  
26

- 27 1. SCORE does not assign a unique identifier to each legally  
28 registered voter.
- 29 2. SCORE does not eliminate duplicate names from the computerized  
30 list.

- 1 3. SCORE does not make a reasonable effort to remove registrants who  
2 are ineligible to vote from the official list of eligible voters.  
3 4. SCORE does not verify the accuracy of the information provided on  
4 applications for voter registration  
5 5. SCORE does not meet the minimum requirements established by Title  
6 III.  
7

8 Because this complaint is filed against the Secretary of State, we  
9 believe that it is unrealistic to expect a fair determination under  
10 the following sections:  
11

12 Sec. 402(a)(2)(F) If, under the procedures, the State  
13 determines that there is a violation of any provision of  
14 title III, the State shall provide the appropriate remedy.

15 Sec. 402(a)(2)(G) If, under the procedures, the State  
16 determines that there is no violation, the State shall  
17 dismiss the complaint and publish the results of the  
18 procedures.

19 Therefore, under Sec 401, we seek action against the State of  
20 Colorado by the U.S. Attorney General and seek declaratory and  
21 injunctive relief.  
22

## 23 HAVA VIOLATIONS

### 24 HAVA Title III Section 303(a)(1)(A) requirement

25 In general.--Except as provided in subparagraph (B), each  
26 State, acting through the chief State election official, shall  
27 implement, in a uniform and nondiscriminatory manner, a  
28 single, uniform, official, centralized, interactive  
29 computerized statewide voter registration list defined,  
30 maintained, and administered at the State level that contains  
31 the name and registration information of every legally  
32 registered voter in the State and assigns a unique identifier  
to each legally registered voter in the State (in this  
subsection referred to as the "computerized list"), and  
includes the following:

- (i) The computerized list shall serve as the single system for storing and managing the official list of registered voters throughout the State.
- (ii) The computerized list contains the name and registration information of every legally registered voter in the State.
- (iii) Under the computerized list, a unique identifier is assigned to each legally registered voter in the State.
- (iv) The computerized list shall be coordinated with other agency databases within the State.
- (iv) Any election official in the State, including any local election official, may obtain immediate electronic access to the information contained in the computerized list.
- (v) All voter registration information obtained by any local election official in the State shall be electronically entered into the computerized list on an expedited basis at the time the information is provided to the local official.
- (vi) The chief State election official shall provide such support as may be required so that local election officials are able to enter information as described in clause (vi).
- (vii) The computerized list shall serve as the official voter registration list for the conduct of all elections for Federal office in the State.

SCORE is violating HAVA Title III Sec. 303(a)(1)(B)(iii)

SCORE does not assign the required unique identifier to each legally registered voter. A purchased copy of the Colorado Voter Database, dated February 25, 2008, was analyzed, and it was determined that:

1. At least 10,217 of the records on the file share, with one or more other records on the file, the identical
  - a. last name,
  - b. first name,
  - c. middle name, and
  - d. birth date

These are almost certainly multiple records for the same person.

As further proof that some of these records are for the same person: (1) some of these matched records have the same residence

address, and (2) some of these matched records have the same telephone number.

In SCORE, each record has a unique identifier; each person does not have the required unique identifier.

2. To verify the above, the results of a query performed against the October 13, 2008 version of the Boulder County SCORE data confirm that the SCORE data contains duplicate records for the same individual.

SCORE has not created the required unique identifier for each legally registered voter.

SCORE is violating HAVA Title III Sec. 303(a)(2)(B)(iii)

SCORE does not eliminate duplicate names from the computerized list.

1. The existence of records with identical last name, first name, middle name, birth date, and telephone number or residence address, cited above, proves that there are duplicate names (multiple records for the same individual) on the computerized list.

SCORE has not eliminated duplicate names from the list.

SCORE is violating HAVA Title III Sec. 303(a)(4)(A)

SCORE does not make a reasonable effort to remove registrants who are ineligible to vote from the official list of eligible voters.

1. The procedure used to detect suspected duplicate records for the same individual is straightforward, and not expensive.

2. We do not know if the Secretary of State has performed the procedure to detect multiple identities. We do know that the multiple identities for the same individual exist in the SCORE data.

Because multiple identities are easy to detect, yet have not been removed from the SCORE data, the Secretary has not made a reasonable effort to remove registrants who are ineligible to vote from the official list of eligible voters.

SCORE is violating HAVA Title III Sec. 303(a)(5)(B)

SCORE does not verify the accuracy of the information provided on applications for voter registration.

1. Boulder County Clerk Hillary Hall was notified, September 9, 2008, that SCORE does not detect errors and inconsistencies in the Boulder County SCORE data. For example, based on these dates:

a. Some individuals are registered to vote before they are born.

b. Some Active Voters have been registered to vote for more than 100 years.

2. SCORE has not verified the accuracy of birth dates and registration dates. This leaves open the questions:

a. Does SCORE verify the identity of the person applying for registration or mail ballots to ensure that the person is actually the person they claim to be?

b. Does SCORE verify the eligibility of the person applying to register to vote, including:

- i. Birth date/death date
- ii. Citizenship
- iii. Residence address
- iv. Residence duration
- v. Sole registration
- vi. Felon/parolee

SCORE does not verify the accuracy of its data. This is a minimum requirement of HAVA Title III and a fundamental requirement of election systems.

SCORE is violating HAVA Title III Sec. 304

SCORE does not meet the following minimum requirements established by Title III:

1. HAVA Title III Sec. 303(a)(1)(B)(iii)
2. HAVA Title III Sec. 303(a)(2)(B)(iii)
3. HAVA Title III Sec. 303(a)(4)(A)
4. HAVA Title III Sec. 303(a)(5)(B)

SCORE does not meet its minimum requirements. It can result in the votes of eligible electors to be cancelled out by ineligible votes.

**CONCLUSION**

The HAVA violations described in this pleading can result in the disenfranchisement of eligible electors and the election of the wrong candidates to Federal Office.

1. When a vote cast by an ineligible elector gets counted, it erases the vote of an eligible elector.
2. Multiple voter registration records (identities) for the same individual appear to the election system as multiple individuals.

3. Colorado's vote counting systems and administrative procedures appear to be designed to detect multiple ballots from the same voter record.

4. Colorado's systems appear to not be designed to detect multiple ballots from the same individual using different voter records.

5. Some of the individuals identified above are registered to vote in more than one county.

6. Some of the individuals identified above are registered as both a permanent mail voter and an in-person voter.

We ask that the Secretary of State stipulate to the facts presented in this notarized pleading.

We ask that the Secretary of State instruct all Colorado County Clerks to delay the opening of Mail Ballot Return Envelopes until this matter is resolved.

We ask that the Secretary of State forward this pleading to the U.S. Attorney, and ask the U.S. Attorney to bring a civil action against The Colorado Secretary of State in United States District Court for such declaratory and injunctive relief (including a temporary restraining order, a permanent or temporary injunction, or other order) as may be necessary to carry out the uniform and nondiscriminatory election technology and administration requirements under sections 303.

If our request for U. S. Attorney action is denied, we ask for a Public Hearing of this matter.

Re: Your Complaint dated October 14, 2008 alleging a violation of Title III of the federal Help America Vote Act of 2002. Tracking Number SOS-HAVA-00-08-0008

Dear Mr. Kolwicz:

This letter will acknowledge receipt of your written, signed and sworn complaint filed October 14, 2008. Your complaint alleges violations of federal law, as follows:

Federal law: violations of Title III of the federal Help America Vote Act of 2002 ("HAVA", Public Law 107-252), specifically, sections 303(a)(1)(B)(iii), (a)(2)(B)(iii), (a)(4)(A), (a)(5)(B) and 304.

The Secretary of State will conduct a preliminary review of your complaint pursuant to section 1-1.5-105(2)(k), C.R.S. Under section 1-1.5-105(1)(i), C.R.S., this office has ninety days in which to make a final determination on your complaint. The ninety-day period begins on the date that the complaint is filed, or October 14, 2008, the date we received your complaint.

Your complaint has been assigned a unique tracking number, which is SOS-HAVA-00-08-0008. Pursuant to Rule 31.5 of the Election Rules of the Secretary of State, I am attaching a copy of the submitted complaint with evidence of receipt and assignment of the tracking number.

Upon completion of the preliminary review of your complaint the Secretary of State will issue a decision. Pursuant to section 1-1.5-105(4), C.R.S., you may appeal any final determination of the Secretary of State to the district court in and for the city and county of Denver within thirty (30) days of the determination.

Sincerely,

J. Wayne Munster  
Acting Director of Elections

October 17, 2008

Mr. Mike Coffman  
Colorado Secretary of State

RE: HAVA Complaint – October 14, 2008

Dear M. Coffman:

A HAVA complaint was filed by Al Kolwicz on October 14, 2008.

No acknowledgement of the complaint has been received by plaintiff, but you, as Colorado Secretary of State, were quoted in the October 16<sup>th</sup> Rocky Mountain News, "There's nothing credible about his complaint."

The following exhibits provide evidence that the claims in the HAVA complaint are true. These exhibits were derived from Boulder County records.

We ask that you provide us with a current copy of the statewide SCORE data with as much detail data for each record as possible. We wish to analyze the statewide data in a similar manner to that demonstrated in the attached seven exhibits.

1. Exhibit 1 – SCORE elector eligibility records that have identical last name, first name, middle name, and birth year. Real people that share the identical last name, first name, middle name, and birth year could possibly exist in Boulder County. If multiple records exist for the same individual, that individual could successfully vote more than once. There is insufficient data to determine the cause of any ineligible duplicate records.
2. Exhibit 2 –Electors from Exhibit 1 who have been sent a mail ballot.
3. Exhibit 3 –Number of electors by birth year.
4. Exhibit 4 – Number of elector by year of registration.
5. Exhibit 5 – Number of electors by their age at the time that they registered.
6. Exhibit 6 – Number of ineligible ballots sent to individuals whose 2008 Primary Election ballot was returned as undeliverable.
7. Exhibit 7 – Partial voting history for electors identified in Exhibit 1.

Please provide us with the statewide SCORE data so that we can update our HAVA complaint.

Al Kolwicz

Attachments: Summary of Exhibits  
Exhibits 1 - 7

## **SUMMARY**

### **Exhibit 1 Potential multiple identities**

This exhibit shows the SCORE data for 110 electors who share the identical last name, first name, middle name, and birth year. The likelihood that at least some of these records are for the same individual is strengthened for those duplicate records that also share the identical Phone Number (see items 3 and 4) or the identical Residence Address (see items 9 and 10). In some cases, both of the records are for Active voters (see items 3 and 4). In some cases one of the records is for a mail ballot and the other for voting in person (see items 11 and 12). In other cases both of the records are for mail ballot voting (see items 35 and 36).

### **Exhibit 2 – Potential multiple identities that have been sent a mail ballot.**

This exhibit shows the SCORE data for 34 of the potential multiple identities that have already been sent a mail ballot. In some cases two ballots have been sent to potentially multiple identities (see items 7 and 8). In some cases the mail ballots have been sent to the same potential multiple identity at exactly the same mailing address (see items 15 and 16).

### **Exhibit 3 – Number of electors by birth year.**

This exhibit shows data extracted from the SCORE data for all of the 213,167 Boulder County records. There are 58 electors that are at least 100 years old; 6 of them are 106 years old. There is one elector that is 17 years old. Being 100 years old does not disqualify a person from voting.

### **Exhibit 4 – Number of electors by year of registration.**

This exhibit shows data extracted from the SCORE data for all of the 213,167 Boulder County records. There are 44 electors who have been registered to vote for at least 100 years. This would suggest that these individuals are at least 118 years old. This does not agree with the data shown in Exhibit 3.

### **Exhibit 5 – Number of electors by their age at the time that they registered.**

This exhibit shows data extracted from the SCORE data for all of the 213,167 Boulder County records. There are 148 electors who registered to vote before they were 18 years of age. Of these, 94 electors were registered to vote before they were born. In addition, 27 electors were registered to vote when they were 100 years old. Being 100 years old does not disqualify a person from voting.

### **Exhibit 6 - Number of ineligible ballots sent to individuals whose 2008 Primary Election ballot was returned as undeliverable.**

This exhibit shows that ineligible ballots were sent to individuals whose Primary Election ballots were returned to the Boulder County Clerk as undeliverable. SCORE data shows the date the mail ballot was requested by the elector. Boulder County undeliverable ballot tracking data shows the date that the Primary ballot was returned as undeliverable. When the request date occurred before the date that the Primary ballot was returned, the record is supposed to have been marked so as to suspend the automatic mailing of a General Election ballot. This apparently was not done.

### **Exhibit 7 – Partial voting history for electors identified in Exhibit 1.**

This exhibit shows the recent voting history (2000 through 2008) for individuals identified in Exhibit 1. Some have voted more than once in multiple elections, using different voter identifiers (see items 3 ,4, 6 and 7). Some have voted more than once using a combination of mail and polling place voting (see items 32 and 33). Some have voted more than once using two mail ballots, (see items 75 and 76).

Mr. Mike Coffman  
Colorado Secretary of State  
1700 Broadway, Suite 270  
Denver, CO 80290

SENT BY FAX and E-Mail

November 4, 2008

**RE: SOS-HAVA-00-0008 BALLOT AND VOTER CHALLENGES**

Dear Mr. Coffman:

We have completed a preliminary analysis of the October 23, 2008 SCORE data COLORADO\_VF\_RAW\_10232008. In addition to evidence that the SCORE system is not compliant with HAVA, we believe that there is sufficient evidence to challenge many ballots and to prosecute potential voter fraud.

SCORE does not meet the mandatory requirement to prevent duplicate voter registrations: Statewide Voter Registration System Requirements - April 18, 2006:

V-1-67 The system shall perform edits to check for duplicate voter registrations. Before a voter registration record is accepted, a matching algorithm must be performed to help ensure the potential registrant does not already exist in the database.

If the system identifies a potential duplicate, the user must be notified and provided the applicable information to perform research to make a determination on the accuracy of the duplicate notice. The user must have the ability to override the error if they determine the record is NOT a duplicate.

The following summarizes additional evidence which is submitted to supplement the evidence provided with HAVA complaint SOS-HAVA-00-0008. These facts were derived from the Colorado statewide voter registration data dated October 23, 2008. They are included in the attached PDF files.

1. **POTENTIAL DUPLICATE INDIVIDUALS** - There are 14,204 records that share the identical LastName, FirstName, MiddleName, BirthYear. It is possible that some of the potential duplicates might be for unique individuals. It is also possible that some of these individuals may be registered to vote more than one time.
  - a. Verification of additional credentials, available to you, such as Drivers License Number and/or Social Security Number, can help to determine if these people are unique or multiply registered individuals. We hope that you will do this in support of this HAVA complaint.
  - b. Many of the potential duplicate individuals have ALREADY VOTED TWICE (by Mail Ballot or Early Vote) or have requested MULTIPLE MAIL BALLOTS.
  - c. Some of the potential duplicate individuals are registered across county lines. However some of the potential duplicate individuals who voted twice are within a single county.
2. Of these 14,204 records, only 69 appear on the Colorado SOS INCOMPLETE LIST dated October 21. It is assumed that the remaining 14,136 have not been identified by the Colorado Secretary of State. This is further evidence that the SCORE system is violating the HAVA requirements.

3. DUPLICATE VOTER\_ID – There are 12 records that share the identical VOTER\_ID. This is a data integrity flaw in SCORE.

VOTER_ID
395087
691245
5519381
600122715
600167244
600188290

4. The collection's VOTE STATUS is summarized below (includes the 12 duplicate Voter\_ID records and 121 STATUS "S" records).

VOTE STATUS	MAIL BALLOT LIST	MAIL BALLOT RETURNED	EARLY VOTED	Total	A	I	S
000				6,571	3,272	3,178	121
001			YES	1,072	981	91	
100	YES			2,964	2,849	115	
101	YES		YES	20	18	2	
110	YES	YES		3,698	3,694	4	
				14,325	10,814	3,390	121

5. SCORE does not implement the MANDATORY data consistency checking requirement.

**S-7-3** The system shall provide standard data entry edit checking and automatic data formatting.

- DEFECTIVE VALUES FOR BIRTH\_YEAR. For example, there are 16 ACTIVE registrants born in 1801; and 33 ACTIVE registrants that are too young to vote.
- DEFECTIVE VALUES FOR REGISTRATION\_DATE. For example, there are 46 ACTIVE registrants with a registration date in the future.

This analysis will change slightly with more precision. But the large number of potentially duplicate individuals will not change significantly.

In addition to the evidence that the SCORE system is not compliant with HAVA, we believe that there is sufficient evidence to challenge many ballots and to prosecute potential voter fraud.
